Institutional Identity

Our Motto

عَلَّمَ الْإِنسَانَ مَا لَمْ يَعْلَمْ

"He taught man that which he knew not"

Our Vision

Strive to foster the goals of building a secular and modern system of integrated education for sustainable development of society and a better future for all

Our Mission

To become a world-class institution to disseminate and advance knowledge by providing instructional, research, and extension excellence

A Message from the Leadership

Vice-Chancellor's Message

Dear Recruiters,

"Living up to the vision of its founding fathers, Jamia strives to create an inclusive, equitable, and just human universe, fostering innovation and illuminating ideas."

The university was established to impart knowledge to human beings in order to develop a wise and progressive society. However, in the era of ICT and the Internet, the role of universities has diversified substantially. Now, universities must fulfil their commitment to this fast-changing environment in the present millennium.

I feel proud of the Department of Computer Science, which has been conscious and sensitive in these matters. Its consistently enriching programs such as the MCA, M.Sc. in Bioinformatics, and the new M.Sc. in AI & ML, to meet the dynamic requirements of the global industry. The department has not only restructured its courses thoroughly to incorporate the latest and the best but has also appointed a Placement Committee led by a professor to improve placement prospects for the current and forthcoming batches.

We are confident that our students are not just technically skilled but are also imbued with a spirit of inquiry and a commitment to excellence. We warmly invite all concerned industries and organizations to support our campus placement initiatives by selecting our students as professionals, thereby giving them opportunities to contribute positively toward industrial goals while also enabling their personal and professional growth. I wish them success in all their future endeavours.

Prof. Mazhar Asif
Hon'ble Vice Chancellor

A Message from the Leadership

Dean's Message

Dear Recruiters,

"I am pleased to share that the Department of Computer Science under the Faculty of Sciences produces quality professionals in the field of IT."

The era of globalization, coupled with the advent of information technology (IT) and the impetus of the Internet, has brought about a sea change in corporate governance and the thinking process of the human mind, especially in the current millennium. I am pleased to share that the Department of Computer Science under the Faculty of Natural Sciences is producing quality professionals in the field of IT. In addition to the postgraduate program, Master of Computer Applications (M.C.A.), the department is successfully running postgraduate professional degree courses - M.Sc. Bioinformatics and M.Sc. Artificial Intelligence and Machine Learning through a well-designed, industry-oriented curriculum.

I am sure that the dedication and commitment of the students, along with the skills developed through these courses, will contribute significantly to national development by enabling them to secure positions in various industries and educational institutions, both domestically and internationally. The mission of producing able and competent IT, Bioinformatics, and Data professionals in the department is being achieved due to the involvement of highly dedicated and experienced faculty members. I hope they will continue to produce worthy professionals to fulfil the industrial and educational needs of the nation. With this objective, I would like to invite all esteemed and relevant organizations and companies to induct our students as competent professionals, which will eventually enable them to make a profound impact on the industry as well as at the global level.

Prof. Dr. Mary Tahir
Dean, Faculty of Sciences

A Message from the Leadership

Head of Department's Message

Dear Recruiters,

" The Indian Economy is considered one of the fastest growing and emerging economies in recent times. The major reason behind the same is the strength in its human resource."

Being the second most populated country in the world, India can reach greater heights if its human resource is utilised appropriately, both by the government as well as individuals and institutions. And one such measure is the provision of qualitative education of the highest standard from any measurable angle. Institutions of higher learning such as Jamia Millia Islamia, a Central University, are committed to the task of bridging this gap. In this endeavour, the Department of Computer Science, JMI has enriched its programmes through complete overhauling of course structure, taking into account the contemporary requirements of the industry. We emphasize a project-based learning model that allows students to gain hands-on experience with current tools and technologies.

We have a strong placement team with an experienced senior professor at the helm, to guide the talented youth by providing direction to attain the right placements which will smoothen life's journey for them as well as their future generations. The Department boasts of availability of the state-of-the-art infrastructure as well as highly motivated and qualified faculty members and staff to guide the youth, which in turn has also been reflected in the overall performance of the students.

I, personally, take pleasure in inviting industries to take the opportunity of availing the best of the brains for an individual as well as the corporate world and, thereby, being a part of national development.

Dr. Mohammad Nazir
HOD, Department of Computer Science

A Message from the Leadership

Honorary Director's Message

Dear Recruiters,

"We are committed to creating a dynamic interface between our students and the corporate world, ensuring they are equipped with the skills and opportunities to excel as global professionals."

Jamia Millia Islamia, New Delhi, is a leading University of higher education in India, with proven track record and performance. It is our constant endeavour, to provide knowledge-based services to satisfy the needs of the society and the industries. The objective of these efforts is to develop potential professionals for the development and growth of our nation.

All the students recruited from the Department of Computer Science have proved to be a great asset to the companies/organizations they joined in the recent past. We have witnessed these students achieve greater heights in their life from trainee to CEOs to Entrepreneurs. I am certain that our present students would maintain the same level of performance and prove to be a great asset to their recruiting organizations/companies.

Our placement office is well equipped with the facilities that are required for smooth conduct of Training and Placement recruitment activities. I am sure that our students will find it useful in securing the placement of their choice. I congratulate the placement coordinators of the Department for their efforts that make the campus placement drives smooth and successful. I wish the on-campus recruitment programme a great success and shall always look forward for mutually beneficial relationships with the recruiters of our students.

Dr. Rahela Farooqi
Honorary Director, University Placement Cell, JMI

A Message from the Leadership

Placement Co-ordinator's Message

Dear Recruiters,

"Our past records are extremely good but the best is yet to come."

The Placement Committee of our Department has been playing an active role in shaping the career of the students by bridging the gap between industry requirements and a student's career. The Programmes run by our department are job-oriented which not only impart higher knowledge but also make one competitive at the global level.

As India is already one of the leaders in producing skilled manpower in the software industry, our department adds one more feather to this cap. To keep abreast with the latest development in IT and Data, the Department organizes workshops, and extension lectures to boost the knowledge as well as the morale of the students. Here students are given independent projects to work on to explore their skills, abilities and also acts as a tool for self-judgment.

A joint smooth programme is made with the Central TPO of the University and the Placement Committee of the Department. The Department also organizes motivational lectures for students on placement from time to time. This gives the student an idea of how to face an interview and other selection tests in the corporate sector by which we can produce better results. The placement brochure contains the student profile and related details. I request you to kindly let us know your plan to visit our Department (DCS). Looking forward to a fruitful association.

Prof. Dr. Suraiya Jabin
Placement Coordinator

ABOUT
Jamia Millia Islamia

"Jamia is an ensemble of a multi-layered educational system covering all aspects of schooling, undergraduate and postgraduate education."

Jamia Millia Islamia, established in 1920, is a prestigious Central University, located in New Delhi and accredited by NAAC under category A. It is an autonomous institution established by an act of Parliament and Hon'ble President of India as its visitor. Being the embodiment of visionaries like Mahatma Gandhi, Moulana Mohammad Ali Jauhar and Dr Zakir Hussain, this national institute epitomizes the synthesis of ancient wisdom and modern scientific temper. The model of education conceived and enriched by its illustrious founder offers a refreshing perspective to young minds and facilitates the accomplishments of their talents. The national ethos of Jamia Millia Islamia is reflected in its richly diverse students and teaching community transcending regional, lingual, religious, and even national boundaries. Jamia Millia Islamia has already played an important role during the Commonwealth Games and TOYOTA University Cricket Championship held in October 2010 and 2013, respectively. It has a state-of-the-art Sports Complex, Central Library, IT Center, Auditorium, Men's and Women's hostels, to host and support a variety of activities needed for a vibrant university. Jamia Millia Islamia is one of the most renowned universities of the country. The Nobel Laureate 'Rabindranath Tagore' once regarded Jamia Millia Islamia as "One of the most progressive educational institutions of India".

ABOUT
Department of Computer Science

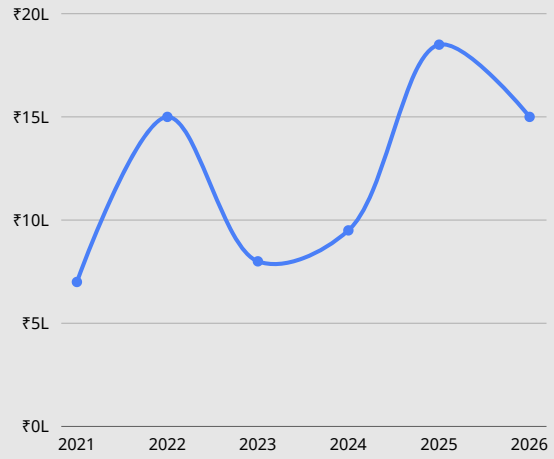

Department of Computer Science is one of the youngest departments of the Faculty of Natural Sciences of Jamia Millia Islamia. It was established in 1999 with a vision to train and develop highly skilled human resource in the field of Computer Science and Bioinformatics and to conduct core and applied research in the thrust areas of Computer Science. The mission is to develop linkage with industries and world-class organizations to strengthen industry-academia relationships for mutual benefit and self reliance of the nation.

The department offers three postgraduate programmes including MCA, MSc (Bioinformatics) and MSc (Artificial Intelligence and Machine Learning). The department also offers a Doctor of Philosophy (PhD) programme aimed at producing quality researchers in several diverse branches of Computer Science.

Department with the current faculty strength of eleven Professors, two Associate Professors sufficiently cater to its requisite teaching and research requirements. Moreover, to cater to its requirements of interdisciplinary courses, guest teachers from institutions of repute like IIT Delhi, JNU and AIIMS are regularly invited.

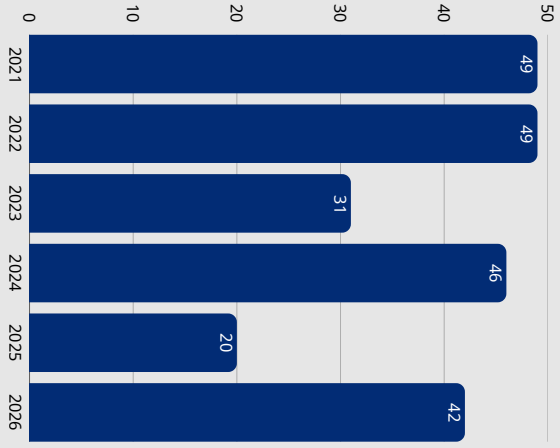

Last Year Placement

Highest CTC Trend(LPA)

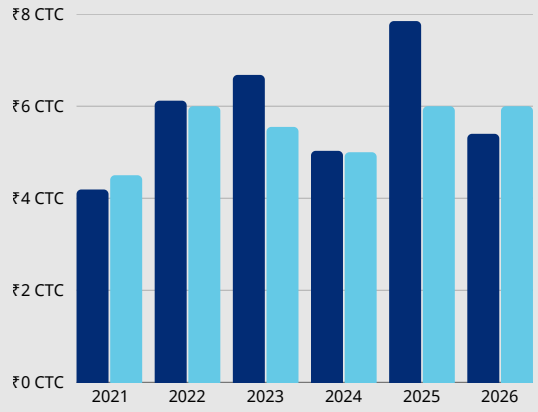

The highest package this year stands at an impressive ₹15 LPA, showcasing the exceptional talent, skills, and industry readiness of our students.

Total Placement Offers

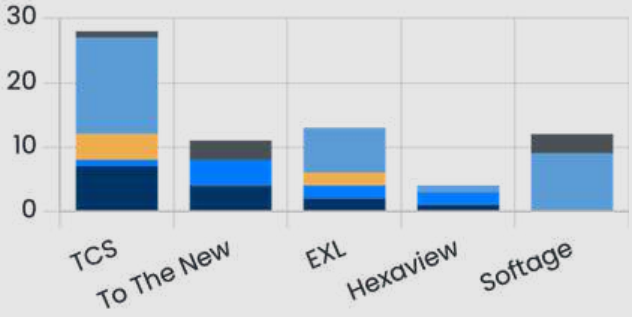

The number of offers reflects our strong and enduring partnerships with a diverse range of industry leaders.

Average & Median CTC Trend (LPA)

Both average and median salaries remain strong, reflecting consistent and competitive compensation across the batch.

Top Recruiter Offers by Year

Industry leaders like TCS and EXL consistently recruit from our program, highlighting the strong skills and industry readiness of our students.

Faculty Profile

DR. MOHAMMAD NAZIR

Professor & HOD (MCA, Ph.D.)
Years of Experience: 24
Areas of Specialization: Software Engineering, Software Security and Software Quality Assurance

DR. SURAIYA JABIN

Professor (MCA, Ph.D.)
Years of Experience: 23+
Areas of Specialization: Artificial Intelligence, Soft Computing, Biometrics, Computational Biology and Pattern Recognition

Faculty Profile

DR. JAHIRUDDIN

Professor
(MCA, Ph.D.)
Years of Experience: 23
Areas of Specialization: Text Mining and Social Network Analysis

DR. MONICA MEHROTRA

Professor
(MCA, Ph.D.)
Years of Experience: 30+
Areas of Specialization: Data Mining, Social Network Analysis and Information Retrieval

DR. RAFAT PARVEEN

Professor (M.Tech., Ph.D.)
Years of Experience: 25+
Areas of Specialization: Bioinformatics - Systems Biology and Computational Biology, Computer Networks

DR. KHURRAM MUSTAFA

Professor
(M.Sc., M.Tech., Ph.D.)
Years of Experience: 30+
Areas of Specialization: E-Learning, Software Engineering and Software Security

Faculty Profile

DR. MANSAF ALAM

Professor
(MCA, Ph.D.)
Years of Experience: 23+
Areas of Specialization: Big Data Analytics and Cloud Computing

DR. SMK QUADRI

Professor
(M.Tech., Ph.D.)
Years of Experience: 34
Areas of Specialization: Text Mining and Social Network Analysis

DR. RAJENDRA KUMAR

Professor (MCA, Ph.D.)
Years of Experience: 25+
Areas of Specialization: Information Security, Network Security, Web Application Security and Data Analytics

DR. SYED ZEESHAN HUSSAIN

Professor
(MCA, Ph.D.)
Years of Experience: 23+
Areas of Specialization: Computer Networks and Security

Faculty Profile

DR. KHALID RAZA

Associate Professor (MCA, MPhil, JRF, Ph.D.)
Years of Experience: 19+
Areas of Specialization: Soft Computing Techniques, Computational Biology and Machine Learning

DR. TARAN SINGH BHARTI

Associate Professor (MCA, M.Tech., JRF, Ph.D.)
Years of Experience: 21+
Areas of Specialization: Security, Database Algorithms, Theory of Computation and Distributed Computing

DR. ISRAR AHMAD

Computer Programmer
(MCA, Ph.D.)
Manages departmental computing Infrastructure and MIS projects

Our Dedicated Support Staff

We extend our heartfelt thanks to our dedicated support team for their invaluable contributions: **Mr. Hasan Mujtaba Kidwai, Mr. Salauddin, Mr. Shravan Kumer Yadav, Mr. Abdul Lateef, Mr. Ziaullah Siddiqui, and Mr. Ishaq Ahmad**

Visiting Faculty

Dr. Mohammed Sufian Badar
University of California
Riverside, CA , USA

Dr. Shane Kasim Naqvi
Director, FTK-CIT

Curriculum

Batch 2025 - 2027

Semester 1

- Foundations of Data Science with Python
- Digital Logic and Computer Architecture
- Data Warehousing & Data Mining
- Mathematical Foundations for AI
- Database Management Systems
- Lab-I (Python)
- Lab-II (Oracle)

Semester 2

- Data Communication & Networks
- Artificial Intelligence & Machine Learning
- Data Structures
- Elective-I: Statistics for Machine Learning
- Elective-II: Natural Language Processing (NPTEL Swayam)
- Lab-III (Machine Learning)
- Lab-IV (Data Structures)

Semester 3

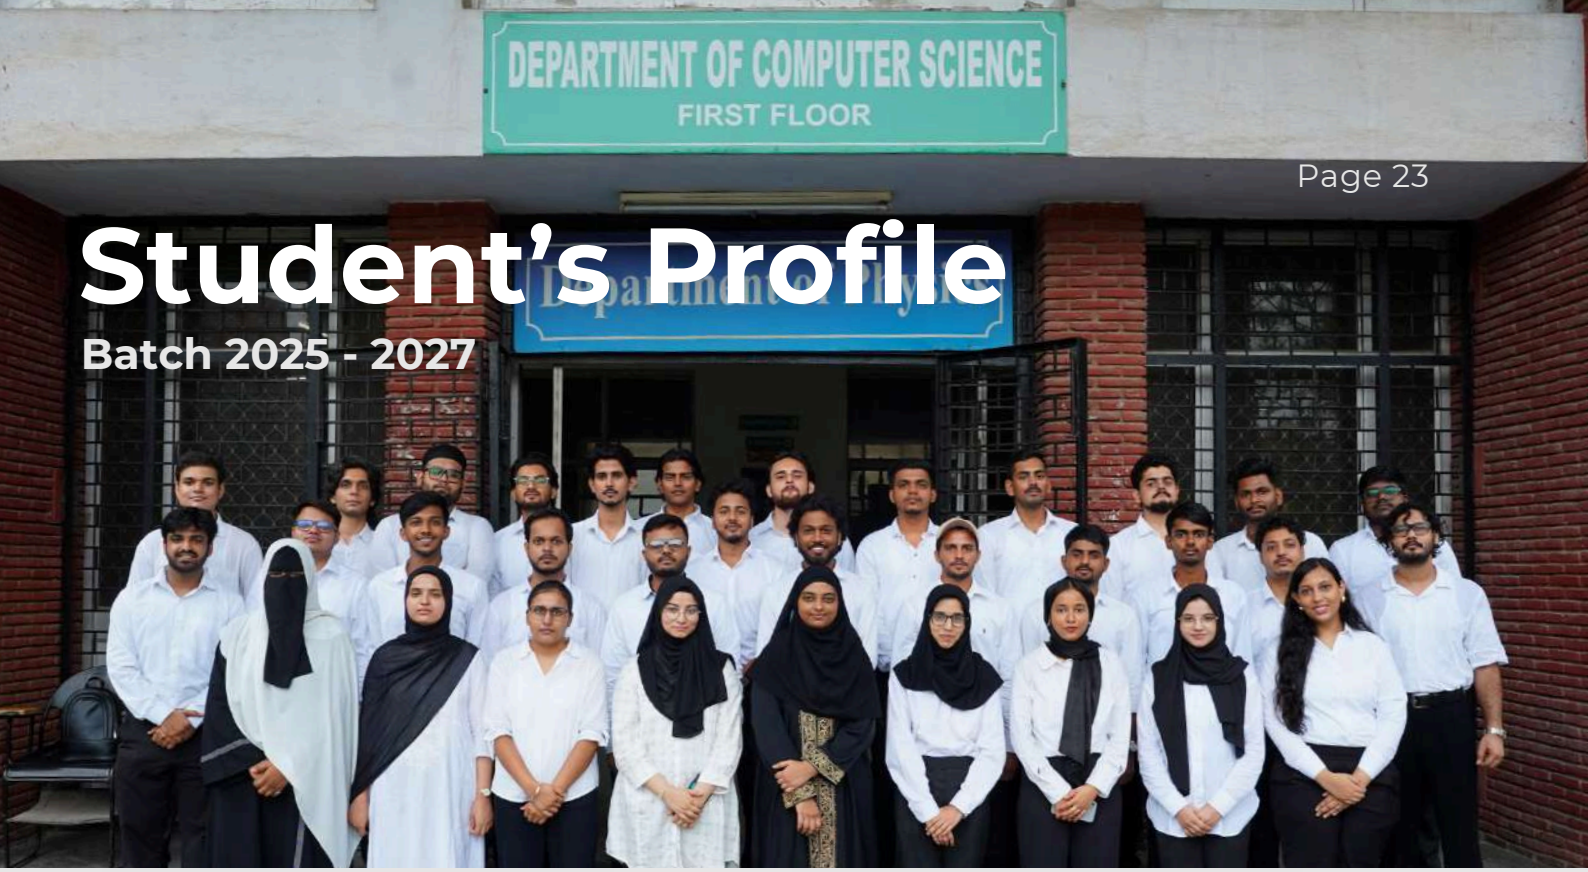

- Cloud Computing
- Deep Learning
- Minor Project
- Elective-I: LLM (NPTEL Swayam)
- Elective-II: MLOps and DevOps
- Lab-V (Deep Learning)
- Lab-VI (Hadoop/MLOps)

Semester 4

- Major Project (6-Month Industrial Training)

Student's Profile

Batch 2025 - 2027
